

DISCOVER ENGINEERING

This fun, traveling exhibit introduces high school students to the 11 types of engineering offered within the University of Utah College of Engineering.

Through interactive elements and video content, your students will enjoy a hands-on introduction to:

Biomedical Engineering *Construction Engineering*
Chemical Engineering *Electrical Engineering*
Civil Engineering *Entertainment Arts & Engineering*
Computer Engineering *Materials Science & Engineering*
Computer Science *Mechanical Engineering*

Here's how it works:

- Science and math teachers bring students to interact during their class periods.
- To schedule a visit and watch a video visit: price.utah.edu/discover-engineering
- If you have questions, please contact: Morgan Boyack 801-581-4528
