The University of Utah Department of Chemical Engineering offers doctoral and master’s degrees for recently graduated students and working professionals alike. We take pride in our diverse and growing graduate student population that represents all corners of the globe. With more than 25 professors and over $9 million per year in research funding, the University of Utah’s chemical engineering department is among the largest and most successful in the western U.S. In addition to high-quality research in areas ranging from nanomaterials to oil and gas to multi-scale simulation of chemical processes, you will find that our award-winning faculty is devoted to teaching and student development. Our graduate students enjoy the collegiality of our department and the world-class teaching and research facilities. The University of Utah fosters innovation and offers strong support for development of startup companies.

Incoming Ph.D. students are guaranteed financial support and tuition costs are waived through the university’s tuition benefit program. Applications for fall semester admission to our Ph.D. program are due January 15.

Every February, prospective Ph.D. students living in the U.S. have the opportunity to visit Salt Lake City to tour the campus and research facilities, learn more about our graduate program, and interact with faculty and students. Organized skiing and tour activities are available to introduce students to the city and surrounding areas. Please visit our web site for more information about this opportunity.

Application fees: Ph.D. (domestic) - Free; Ph.D. (international) - $65; MS (domestic) - $55; MS (international) - $65
